

WC Fixing to Floor – L Bracket

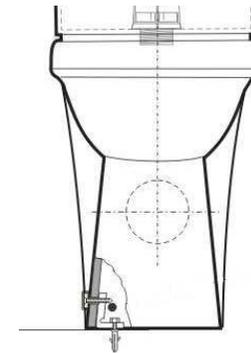

1. Position Pan in desired location. On the outside of the Pan mark the location of the fixing hole.

2. From the outline of the Pan mark inside the thickness of the pottery to position the L Shape Bracket.

3. Check plug dimension and use corresponding bit size to drill as required. Fix L Bracket to floor.

4. Using the nylon spacer, screw through the side of the pan into the L Shaped Bracket to secure the pan in place.
