6. With memory function, support for multiple folder music player

## Main Key Functions of the remote control:

1. “  ”

Power On/Off

2. “**Mode**”

Mode switching between Bluetooth/Radio

3. “  ”

Remove, after mute

4. “  ”

Play / Pause to listen to Bluetooth or saved radio stations

5. “  ” “  ”

Previous or Next track for Bluetooth and radio stations or time adjustment

6. “**VOL+**” & “**VOL-**”

Volume adjustment

7. “**RPT**”

In the radio mode this will auto-store radio stations

8. “**CLOCK**”

Press to display the time, long press to adjust the hours, short press to adjust the minutes

9. **Bluetooth**

a. Press the “**MODE**”, choose the function “**BLUE**”,

b. Open your mobile’s bluetooth searching function, choose the item **Sensio**.

If the mobile is not smart phone (Android system), please enter password **0000**.

The Bluetooth function will only operate with one device at any one time. If one item is paired to the Bluetooth and a second device tries to connect, ‘Sensio’ will not appear in the search results for other available Bluetooth devices. To change connection to a new device we recommend you disable ‘Sensio Bluetooth’ from all devices you have previously paired and then try again with the desired device.
