STC24, STBB24, STBL24**

Please keep this booklet for future reference.

Installer: When you have read these instructions, please ensure you leave them with the user.

---

# INTRODUCTION

---

Thank you for buying a Heritage Product. When you buy a Heritage product, you can be confident that it not only features a beautiful, distinctive, classic design, but that it has also been made to the very highest quality standards.

To ensure that it works to its full potential, it needs to be fitted correctly.

These fitting instructions have been created to give you all of the information you need and, if you need any further help, please do not hesitate to give us a call on: 0330 026 8503.

# SAFETY NOTES

---

Please make sure you read these instructions and retain for future use.

All products manufactured by Heritage Bathrooms are safe, providing they are installed and used correctly and also receive maintenance when needed.

This product, including the connecting water and waste system will need to be installed in accordance with and meet the requirements of the Water Supply Regulations 1999 (Water Fittings) and current by-laws. If you are in doubt about your ability to install this product correctly or safely, you should employ the services of an experienced qualified plumber.

**This product must not be modified in any way otherwise this will invalidate the guarantee.**

Remove all packaging and check that there are no missing or damaged parts.

Consider the following whilst using power tools:

- Prior to drilling into walls, check there are no hidden electrical cables or wires and there are also no water pipes. These can potentially be found using an electrical or metal detector.
- Wear the correct PPE, especially ear, eye and hand protection when using power tools. Unplug any mains equipment after use.
- Keep electrical equipment away from sources of water.

---

# PACK CONTENTS

## Fixed Head

ST\_22

\* - pre-fitted inside fixed head

## Wall Arm

ST\_24

# TOOLS REQUIRED

Adjustable  
Spanner

Pipe Cutter

# INSTALLATION

## Typical Installation

\* - not supplied

# INSTALLATION

1

Thread the arm through the wall with the shroud in place.

2

Secure the arm in position by tightening the locking nut and backnut.

3

Connect the outlet pipework to the shower arm using a suitable connector (not supplied).

The supply pipework to the shower valve must be rigid and secured in position with the use of pipe clamps.

4

Screw your chosen shower rose onto the shower arm by **HAND ONLY**. Ensure the sealing washer is used.

Turn on the water supply and check all joints and connections for any leaks.

---

## CARING FOR YOUR PRODUCT

---

Heritage products are made from premium materials, with hand polished, PVD, EPD or electroplated finishes.

Your product should be regularly cleaned with warm water, a mild pH-neutral liquid soap, and polished with a soft cloth. Any residues from soap, toiletries etc. should be rinsed off straight after use.

Household bleaches and cleaners contain harsh chemicals and may damage the surface finish. Avoid using abrasive cloths, scouring pads, scrub sponges, steel wool or anything similar.

Some surfaces such as nickel and pewter may be affected by the dye found in some cloths, so it is also important to avoid leaving cloths on surfaces.

---

## GUARANTEE

---

The confidence we have in the quality of our products and services enables us to offer a free peace-of-mind product guarantee from 2 years up to a lifetime guarantee against any manufacturing faults, with proof of purchase. In addition, our attentive customer service team are available to help solve any problems which may arise quickly and effectively so you can enjoy your bathroom.
