# **Technical Data Sheet**

Product Name: In Wall Cistern Product Code: TR9009

### **Key Features**

- ideal for fully tiled in installations
- all parts serviceable through flush plate aperture
- selection of flush plates available separately
- 3/6 litre flush
- 0.2 10 bar working pressure range
- pneumatic flush valve
- side entry inlet valve (1/2" BSP)
- top & front access
- 90° flush pipe
- flush pipe securing bracket
- polystyrene insulation jacket

## FAQ's

What is the height of the flush inlet pipe to the pan? 327mm - the pipe can be cut down for different inlet locations

What is the vertical length of the flush pipe to the tank? 177mm to 327mm.

### Can I use a flush button rather than a flush plate with this cistern?

Yes, this type of installation is possible, but you must make provision for maintenance of the cistern in lieu of the flush plate.

#### What depth of void will the tank fit into?

The cistern will fit into a void of 138-194mm. If a deeper void is required, the tank can be mounted on battens.

### What thickness of cladding can be used?

Minimum of 20mm - Maximum 95mm for the adjustable flush plate mounting.
