## Safety Information

**Warning:** Before starting any installation please consider the following: Prior to drilling into walls or floors, check that there are no hidden electrical wires, cables or water supply pipes. This can be checked with the aid of an electronic detector.

If power tools are used do not forget to:

- Wear eye protection
- Unplug equipment after use

If you are unsure at all regarding the installation of this product, you should consult a competent person with experience of installing products of this nature.

The accuracy and levelness of these product may depend on the floor and walls being level and perpendicular to each other, if not then a spirit level can be used during the installation to get an accurate alignment.

# Installation

Example of Single backplate fitting, the part supplied with your product may vary.

Single backplate fitting, tumbler and holder, double tumbler and holder, Toilet Brush:

1. Establish the position for the accessory and mark out the fixing holes.
2. Drill holes to suit and insert wall plugs if required.
3. Screw the fixing plate to the wall, with the back flat to the wall.
4. Loosen off the grub screw (but do not remove) and place the accessory over the fixing plate with the grub screw at the bottom.
5. Tighten up the grub screw until the pillar is secure against the wall.
