HEATING | WALL | VERTICAL TOWEL BAR

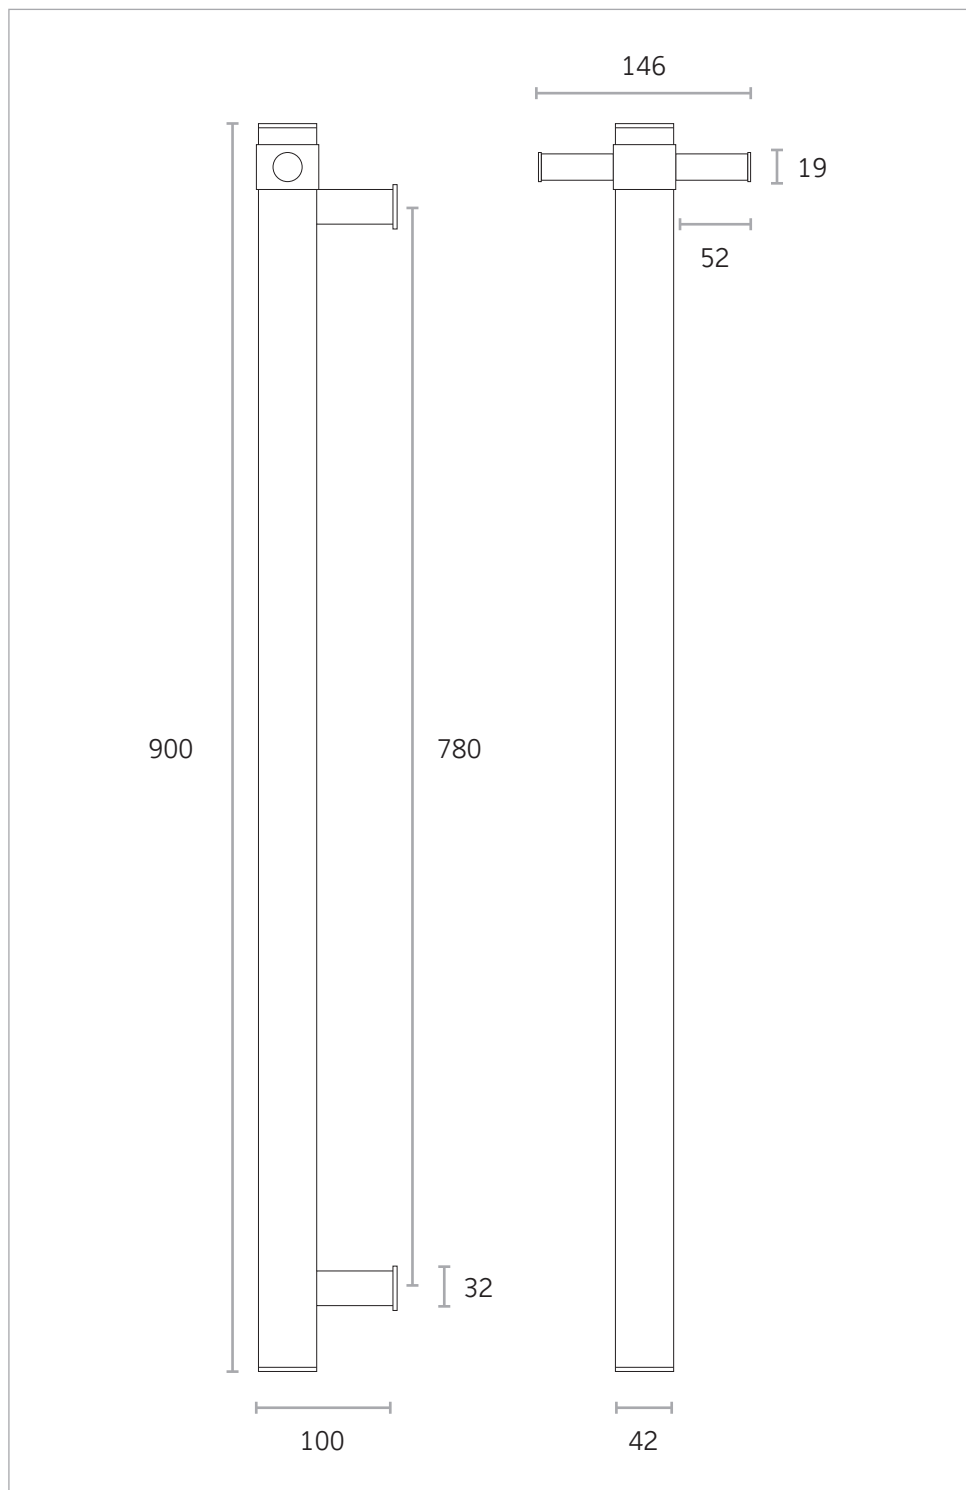

Model: HTB-VR-900 x3 with Robe Hook Removed

ThermoSphere Vertical Towel Bars are a 12V (SELV) electric heated towel bar designed to be installed vertically.

Each vertical towel bar comes with a removable robe hook.

Must be connected to the electrical supply via a suitably rated 12V transformer and installed in line with all relevant guidelines.

Wiring connection is concealed in the bottom mounting bracket.
