

thermo Sphere

Contactors Snubber

If the total load of your electric underfloor heating exceeds 16A, you can't control it from a single thermostat, unless you use a Contactors Snubber.

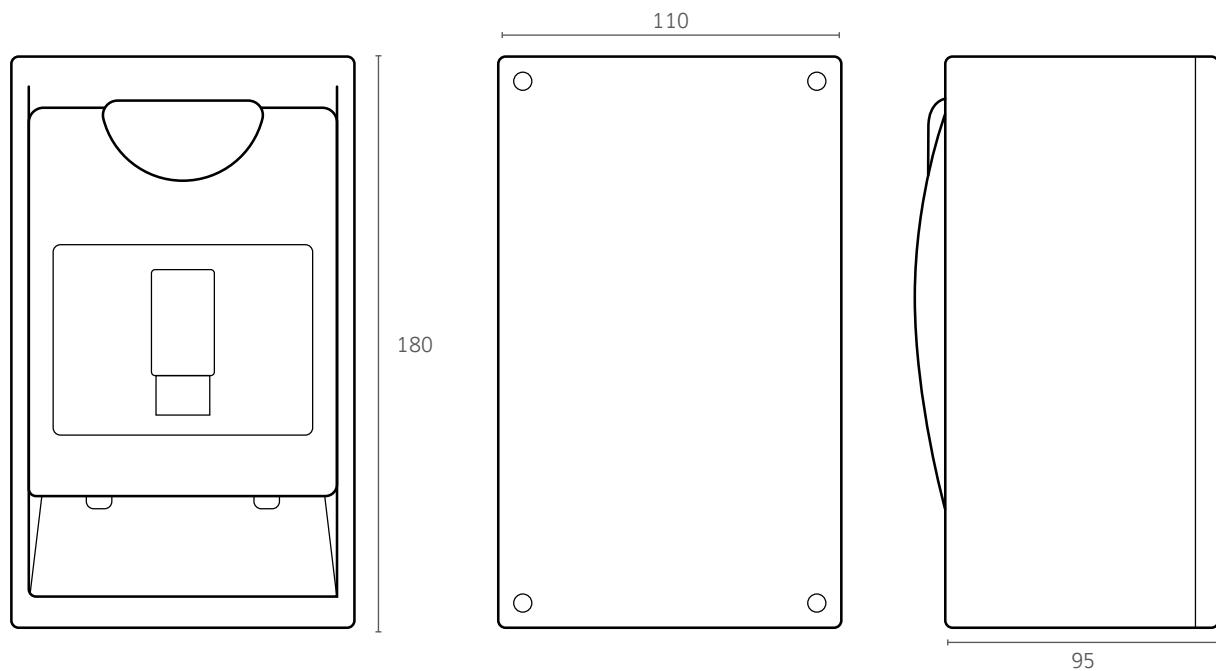

- Control high load heating systems from one thermostat.
- Snubber for ultimate protection.
- IP30 rated safe for home use.
- Up to 63A maximum load.

Technical data

Power supply	230V
Size	W 110 x H 180 x D 95mm
Protection rating	IP30
Mounting	Surface mount
Double insulation	Yes
Warranty	3 years
