Reverse dimensions for Right Hand Basin

Diagrams not to scale
All dimensions in mm
tolerance of +/-5mm

**Dimensions are subject to change, customers are advised to measure actual product before commencing installation.

***Fixing point dimensions are for guidance only/the positions of wall fixing must be checked when product is received.

Materials

Basin: Isocast (Info Below)

Has many names including:

- Gelcoat
- Cultured marble
- Cast mineral marble
- Synthetic marble

Base material is 70% natural (aggregate dolomite rock - calcareous magnesium carbonate). A misconception is that this material is completely manmade. The other 30% is a mixture of various polyester resins. 1.5 - 2.0mm Top coating of "gelcoat" which is the proprietary name for the polyester resin used to seal all top faces of the basin / worktop. Tolerance of +3/-0mm. Ceramic is more typically +5/-5mm. Fully tested against multiple stains which can either be removed with standard cleaners (autosol for example) or the specialist clean and shine repair kits.

FAQs

Q: What is the maximum water depth of the basin?

A: Approx 106mm up to the overflow.

Q: Whats is the width of the Tapledge?

A: The Tapledge is 91mm wide.

Q: What is the distance from the Taphole centre to Basin Waste?

A: 145mm

Q: Are there marks for taphole options?

A: No, the taphole is pre-drilled.

Q: What are the taphole/ basin waste sizes?

A: All sizes are to British Standard - (BS EN 31)

- Diameter of the central tap hole = 35mm : +2/ -1mm
- Bore of the waste outlet hole = 46mm : +2 / - 3mm
- Diameter of the base for the seal between the waste outlet hole and the waste fitting = ≥ 60 mm
